23 JOHN ROBINSON: I'm John Robinson. And I think
24 that Yucca is a good place to be storing nuclear waste. I
25 think we should be going much more with nuclear power

1 plants in the USA, and we should have it stored in a safe
2 place way in the middle of nowhere where it's not too close
3 to population, dense population areas.

4 I also think it's a wee bit of a game that
5 the government has been playing. All of the politicians
6 have been saying that they don't want Yucca Mountain, and
7 yet the project is almost ready for operation. But I'm
8 glad it's ready anyhow.
